

The Visual Interest Table is a keystone reference for Landing Page Academy. To the best of my knowledge, it is the world's most complete reference of techniques for adding visual interest or "spice" to your designs. Enjoy, and if you have feedback or would like to see techniques added, [please reach out](#) 😊

RESOURCES

- **Background removal.** These automated tools don't always get quite what you're looking for, so I'll list a few of them.
 - [Remove.bg](#)
 - [Adobe's Background Removal](#)
 - [Removal.ai](#)
 - [Photoshop](#). If you love this lesson and really want to dive deep into amazing imagery, you are guaranteed to need Photoshop. Currently \$20/month for a single app Adobe Creative Cloud subscription. There are a half-dozen ways to remove a background in this mother of all image-editing apps.
 - **Via Mac OS.** Right-click an image file in Finder, hover your cursor over the Quick Actions submenu, then click Remove Background. (This only works on MacOS Ventura (released fall 2022) and above)
